

Introducing Roark Women's Fall Collection—a refined selection designed for the adventurous spirit that fuels our desire for discovery. This line prioritizes versatility and functionality, featuring thoughtfully crafted pieces that effortlessly transition from urban explorations to outdoor pursuits. With unique patterns and sustainable materials, our apparel strikes the perfect balance between rugged durability and feminine effortlessness.

This season, we've expanded our offerings with exciting new designs: the beloved Bess Up franchise has been extended in a cropped version, while our HWY 1 series has seen the addition of a stylish overall dress. Inspired by the success of our men's champions, we've also created a women's version of the men's Hebrides. Additionally, building on the popularity of the Open Roads jacket, we're thrilled to introduce a denim variant that combines style and comfort.

As we honor our roots, we invite women to embrace their journeys with apparel that offers unparalleled comfort and instills confidence. We remain committed to designing high-quality garments that support your active lifestyle, ensuring every piece looks as good as it feels.
